

TRAUMA INFORMED HEALTH CARE SERVICE

We provide a safe, confidential, and compassionate environment where survivors can receive the medical attention they need, free from judgment and with a deep understanding of the trauma they've experienced.

GET OUR SERVICES

ANNUAL PHYSICALS

Annual physicals provide a thorough health assessment, including vital checks, preventative screenings, and personalized wellness guidance, all delivered with a compassionate, trauma-informed approach.

ONSITE LAB AND ECG

Onsite lab and ECG services offer convenient access to essential diagnostic tests, including blood work, urinalysis, and heart monitoring, allowing for quick and accurate assessments within a supportive, trauma-informed environment.

MEDICATION MANAGEMENT

Medication management services ensure safe and effective treatment plans tailored to each survivor's unique needs, with careful monitoring, education, and support for optimal health and recovery.

PRIMARY & URGENT CARE

Our primary and urgent care services provide comprehensive, immediate medical attention, including routine exams, treatment for injuries and infections, vaccinations, and screenings, ensuring timely support for a wide range of health needs.

WE CARE ABOUT YOUR HEALTH

Whether it's routine healthcare, injury treatment, or specialized care related to abuse, our team is dedicated to offering comprehensive services that prioritize dignity, respect, and healing.
